RE: **REQUEST FOR CONFIDENTIAL TREATMENT**
WC Docket No. 14-58 - ETC Annual Reports and Certifications

Request that Information Submitted to the Commission be Withheld from Public Inspection Pursuant to 47 C.F.R. §0.459 and 5 U.S.C. §552(b)(4): Five-Year Service Quality Improvement Plan Progress Report included in FCC Form 481

Confidential Information – Subject to Protective Order Before the Federal Communications Commission

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, Delcambre Telephone Company, LLC (“Delcambre” or “the Company”), Study Area Code 270428 is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket No. 14-58. *The version of the Company’s FCC Form 481 submitted via ECFS is a redacted version of the filing that contains no confidential information.*

The Company, by its authorized representative, hereby requests confidential treatment of two attachments to its FCC Form 481: (1) the five-year service quality improvement plan progress report and (2) the financial annual report, both of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan progress report is being made pursuant to Section 0.459 of the Commission’s rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential

treatment of the financial annual report is being made pursuant to the FCC's March 22, 2016 *Protective Order* in WC Docket Nos. 10-90 and 14-58. These attachments contain competitively sensitive data that Delcambre maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Company.

Five-Year Service Quality Improvement Plan Progress Report

Pursuant to Section 0.459 of the Commission's rules and Exemption 4 of FOIA, Delcambre requests that the text and data extracted from its five-year service quality improvement plan progress report be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Company maintains as confidential. Public availability of this information would have a substantial negative impact on the Company.

In accordance with Section 0.459 of the Commission's rules, the following information is provided in support of this request:

(1) Identification of the specific information for which confidential treatment is sought:

Attachment to Line 112 of FCC Form 481 – Five-Year Service Quality Improvement Plan Progress Report. Specifically, confidential treatment is sought for all information in the five-year plan progress report related to the Company's access line counts, existing broadband capabilities, and current and planned financial investments in its network that will improve service quality, service coverage, and/or service capacity for its customers.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:

The information was submitted in WC Docket No. 14-58 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a progress report on its five-year service quality improvement plan, pursuant to 47 C.F.R. §54.313(a)(1).

(3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:

The five-year service quality improvement plan progress report contains granular information on the Company's access line counts and/or existing broadband capabilities as well as recent and planned capital investments in its network to

Page 3

improve service quality, service coverage, and/or service capacity. It also contains a map of the Company's service area detailing progress toward meeting broadband deployment targets at the wire center level. This is closely guarded, privileged information that the Company does not make publicly available.

- (4) Explanation of the degree to which the information concerns a service that is subject to competition:

Broadband is subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more wireless Internet service providers. Most RLECs also face competition from at least one other wireline broadband provider, such as a larger cable company, who will typically seek to "cherry pick" the lower cost portions of the study area. In addition, all RLECs face competition throughout their territories from satellite broadband providers.

- (5) Explanation of how disclosure of the information could result in substantial competitive harm:

Disclosure of the information contained in the five-year plan progress report would provide competitors with detailed, granular information regarding the Company's access line count, its existing broadband capabilities, and its recent and planned network investments that improve service quality, coverage, and/or capacity for subscribers. This would give competitors valuable confidential information with which to develop their own strategies for investing in the service area, thereby bringing substantial competitive harm to the Company.

- (6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Company has continually treated the extracted information in its five-year plan progress report as confidential and carefully controls the information to protect it from competitors. Access to the information is limited to employees that require it and to non-employees with confidentiality obligations such as lenders, consultants, auditors, and attorneys. In addition, when such information is required to be submitted to a state regulatory authority it has been filed as confidential information, not available to the public.

MOSS-ADAMS_{LLP}

Ms. Marlene Dortch

Page 4

- (7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan progress report is not available to the public, and third-party access is limited as described in (6) above.

- (8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Company requests that the extracted information be withheld from public inspection indefinitely. The information in the five-year plan progress report details the Company's most recent network upgrades in relation to its previously submitted service quality improvement plan. It may also contain upcoming planned network improvements during the five-year period ending 2019. This information would provide a very useful baseline for competitors for several years beyond that period.

- (9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

Financial Annual Report

Section 3005 of FCC Form 481 requires a privately-held rate-of-return carrier receiving high cost support to attach a full and complete annual report of the company's financial condition and operations pursuant to 47 C.F.R. §54.313(f)(2). Delcambre seeks confidential treatment of its financial annual report pursuant to the March 22, 2016 *Protective Order* in WC Docket Nos. 10-90 and 14-58.¹ The *Protective Order* specifically covers information filed pursuant to 47 C.F.R. §54.313(f)(2).

Delcambre is providing to the Office of the Secretary, under seal, this cover letter and the Form 481 filing which includes the confidential information that is being requested to be withheld from public inspection.

Each page of the five-year service quality improvement plan progress report confidential submission bears the legend, "CONFIDENTIAL – NOT FOR PUBLIC DISCLOSURE."

Each page of the financial annual report confidential submission bears the legend, "CONFIDENTIAL INFORMATION – SUBJECT TO PROTECTIVE ORDER BEFORE THE FEDERAL COMMUNICATIONS COMMISSION."

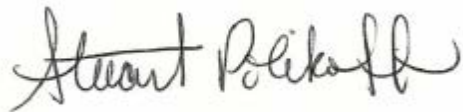

The confidential information has also been submitted to the Universal Service Administrative Company through its E-File system as attachments to the FCC Form 481.

In the filing submitted via ECFS, all pages containing confidential information bear the legend "REDACTED – FOR PUBLIC INSPECTION."

This cover letter includes no confidential information and the text is the same in both the non-redacted and redacted versions except for the confidentiality markings.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Stuart Polikoff". The signature is fluid and cursive, with the first name "Stuart" and last name "Polikoff" clearly distinguishable.

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission’s public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.	Name of Attached Document Listing Required Information

**LINE 112 – FIVE-YEAR SERVICE QUALITY IMPROVEMENT PLAN
PROGRESS REPORT**

Delcambre Telephone Company, LLC (“the Company”) received \$158,988 in Universal Service Fund (“USF”) support in calendar year 2015. [REDACTED]

[REDACTED]

[REDACTED]

DATE	WORK ORDER NO.	POSTED BY
------	----------------	-----------

LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

Delcambre Telephone Company, LLC (“the Company”) complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Company operates are outlined in its local exchange tariff, which is approved by the Louisiana Public Service Commission (“Louisiana PSC”). The tariff contains provisions regarding the Company’s customer service and protection practices.

Service quality standards for voice service are established by the Louisiana PSC. The Company consistently meets or exceeds those standards and provides reports to the Louisiana PSC, in accordance with the Louisiana PSC’s rules.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a “best effort” service and are dependent upon a number of variables, many of which are outside the control of the Company. The Company also complies with the FCC’s Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require transparency of network management practices, performance, and the commercial terms of broadband services.

The Company complies with any and all consumer protection obligations under state law.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC’s Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011). Certification of the Company’s compliance with CPNI rules and a description of the Company’s operating procedures that ensure compliance are filed annually with the FCC.

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Delcambre Telephone Company, LLC (“the Company”) is capable of operating in emergency situations. Standby power generators are supplied at the central office, repeater sites, and video headend to ensure functionality without external power until such power is restored.

The Company is capable of repairing or replacing damaged facilities which it owns. These facilities include copper and fiber cable, utility poles, as well as network routers needed for the recovery of services. The Company is dependent upon AT&T for the rerouting of traffic around damaged facilities, as AT&T owns the facilities in the Company’s central office that carry toll and Internet traffic. Although recovery may not be immediate after an emergency, there is a restoration plan in place for an expeditious recovery of services when the emergency has passed and it is safe for the needed repairs to be completed.

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau's 2015 reasonable comparability benchmark for voice services was \$47.48, which includes the federal subscriber line charge ("SLC").¹

In 2015, the single-line residential local rate for all residential customers served by Delcambre Telephone Company, LLC ("the Company") was \$13.03. When the federal SLC (\$6.50) and the state SLC (\$1.00) are included, the rate was \$20.53. Therefore, the Company's pricing of fixed voice services in 2015 was less than the reasonable comparability benchmark of \$47.48.

¹ *Wireline Competition Bureau Announces Results of 2015 Urban Rate Survey for Fixed Voice and Broadband Services and Posting of Survey Data and Explanatory Notes*, Public Notice, WC Docket No. 10-90, DA 15-470 (rel. April 16, 2015).

LINE 1030 – BROADBAND SERVICES RATE COMPARABILITY

In 2015, Delcambre Telephone Company, LLC charged a residential rate of \$52.95 for broadband providing 10 Mbps download, 1 Mbps upload, and an unlimited usage allowance. This rate is lower than \$77.80, which is the 2015 reasonable comparability benchmark for the same offering established by the Wireline Competition Bureau.¹

¹ *Wireline Competition Bureau Announces Results of 2015 Urban Rate Survey for Fixed Voice and Broadband Services and Posting of Survey Data and Explanatory Notes*, Public Notice, WC Docket No. 10-90, DA 15-470 (rel. April 16, 2015).

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

Residential customers of Delcambre Telephone Company, LLC (“the Company”) who qualify for the Lifeline Program receive a discount of \$9.25 on local voice telephony service.

For all of the Company’s Lifeline customers, the Lifeline single-line residential rate, including the federal subscriber line charge (“SLC”) and the state SLC, is \$11.28 (\$20.53 standard rate - \$9.25 discount).

All single-line residential customers, including Lifeline customers, have an unlimited number of minutes for calls made within the local calling area.

Lifeline customers may purchase Local Optional Service (“LOS”) for a non-discounted rate of \$.97 plus \$.06/minute capped at \$15.00. LOS is a calling plan that encompasses areas within 40 miles of the Company’s local exchange area. Once a customer’s calls reach \$15, they will not be billed for any other calls within the 40 mile area. If usage is below the capped rate, the customer only pays for the calls made.

Lifeline customers may subscribe to long distance service offered by the Company at a non-discounted rate of \$.13/minute. Lifeline customers may also choose another long distance carrier. Lifeline customers may also elect to subscribe to toll blocking at no charge.

The Company offers bundled services to Lifeline customers that are discounted by \$9.25 for the local voice service component of the bundle.

Lifeline Program reductions do not apply to additional services such as information-related services and custom calling features. Lifeline customers may subscribe to these services at the same rates offered to other customers.

Additional information regarding the terms and conditions of voice telephony Lifeline plans can be found at http://www.delcambre.net/telephone_life_line.html.

LINE 3010 – MILESTONE CERTIFICATION

Delcambre Telephone Company, LLC (“the Company”) hereby certifies that the Company has taken reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, at rates that are reasonably comparable to rates for comparable offerings in urban areas, and that requests for such service are met within a reasonable amount of time. If the Company determines that a request for broadband at actual speeds of at least 10 Mbps downstream/1 Mbps upstream is unreasonable, and offering broadband service at actual speeds of at least 4 Mbps downstream/1 Mbps upstream is reasonable, the Company offers broadband service of at least 4 Mbps downstream/1 Mbps upstream.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Board of Directors
Delcambre Telephone Co., L.L.C.
Delcambre, Louisiana

We have reviewed the accompanying balances sheets of Delcambre Telephone Co., L.L.C., which comprise the balances sheets as of December 31, 2015 and 2014, and the related statements of income, members' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountants' Responsibility

Our responsibility is to conduct the reviews in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our report.

Accountants' Conclusion

Based on our reviews, except for the issue noted in the Known Departure from Accounting Principles Generally Accepted in the United States of America paragraph, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Known Departure from Accounting Principles Generally Accepted in the United States of America

As disclosed in Note 1 to the financial statements, accounting principles generally accepted in the United States of America would require the Company to consolidate its financial statements with its wholly owned subsidiary, Delcambre Cellular, L.L.C. The Company's management has informed us that the Company is reporting the investment in its subsidiary using the cost method of accounting.

NOTES TO FINANCIAL STATEMENTS
See Independent Accountants' Review Report

Note 1. Accounting Policies

This summary of significant accounting policies of Delcambre Telephone Co., L.L.C., (the "Company") is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who are responsible for their integrity and objectivity.

Nature of operations:

The Company is an incumbent local exchange carrier. The Company provides local phone service and digital subscriber line ("DSL") over copper as well as telephone, broadband and video over fiber to the community of Delcambre, Louisiana and its surrounding area.

Basis of accounting:

The Company's policy is to prepare its financial statements on the accrual basis of accounting; consequently, revenues are recognized when earned rather than when received, and expenses are recognized when the obligation incurred rather than when cash is disbursed.

Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents:

For purposes of reporting cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Receivables:

Accounts receivable are recorded at net realizable value. The Company provides provisions for uncollectible accounts receivable based upon factors surrounding the credit risk and activity of specific customers, historical trends and other information. The allowance is reviewed periodically and adjusted for accounts deemed uncollectible by management. After all attempts to collect a receivable have failed, the receivable is written off against the allowance. The Company has determined that the amount of allowance as of December 31, 2015 and 2014 are immaterial.

Property and depreciation:

Property and equipment are carried at cost. Assets are depreciated over their estimated useful life using the straight-line method. When property and equipment are retired, the related costs and accumulated depreciation are removed from the respective accounts and the net gain or loss is reflected in income.

NOTES TO FINANCIAL STATEMENTS

Income taxes:

As a limited liability company, the Company's taxable income or loss is allocated to members in accordance with their respective percentage ownership. Therefore, no provision or liability for income taxes has been included in the financial statements.

Management evaluated the Company's tax positions and concluded that the Company had taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. With few exceptions, the Company is no longer subject to income tax examinations by the U.S. federal or state tax authorities for years before 2011.

Accounting for wholly owned subsidiaries:

Accounting Standards Codification 810, *Consolidation*, provides that the purpose of consolidated financial statements is to present, primarily for the benefit of the owners and creditors of the parent, the results of operations and the financial position of a parent company and all its subsidiaries as if the consolidated group were a single economic entity. There is a presumption that consolidated financial statements are more meaningful than separate financial statements and that they are usually necessary for a fair presentation when one of the entities in the consolidated group directly or indirectly has a controlling financial interest in the other entities. Accordingly, under ASC 810, all subsidiaries - that is, all entities in which a parent has a controlling financial interest - should be consolidated. The Company accounts for its investment in its wholly owned subsidiary on the cost basis of accounting.

Note 2. Investments
